

Set Up a Secondary Shared Account

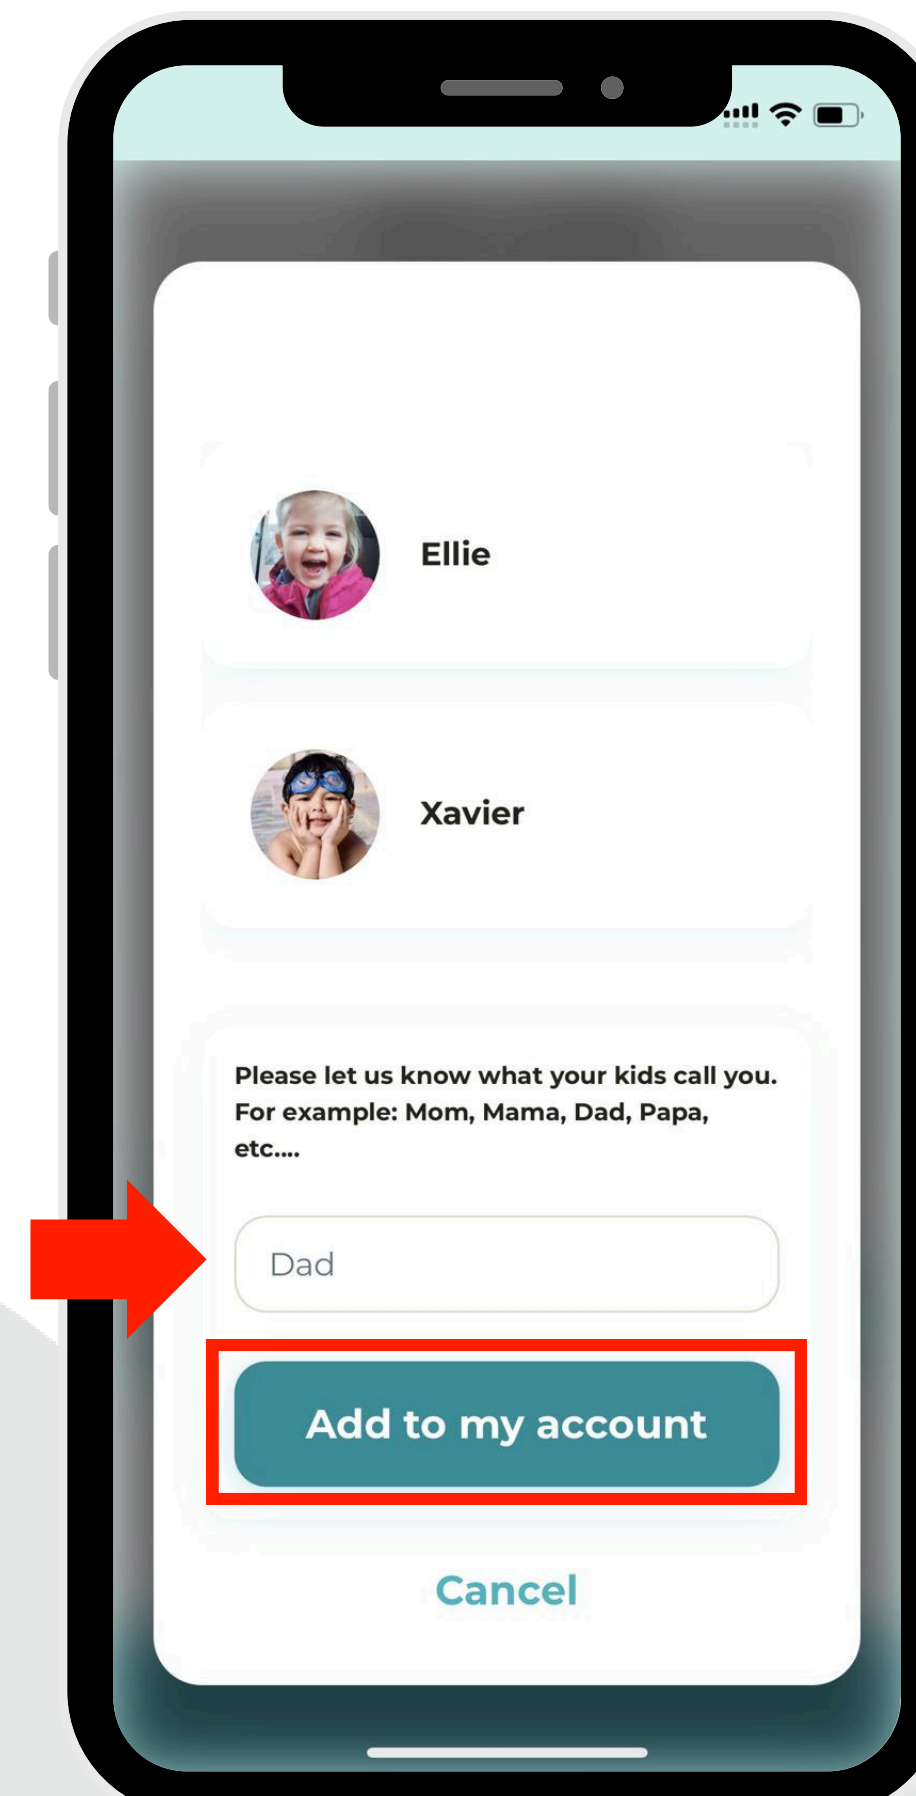

1. Fill in your information to sign up for a parent account.

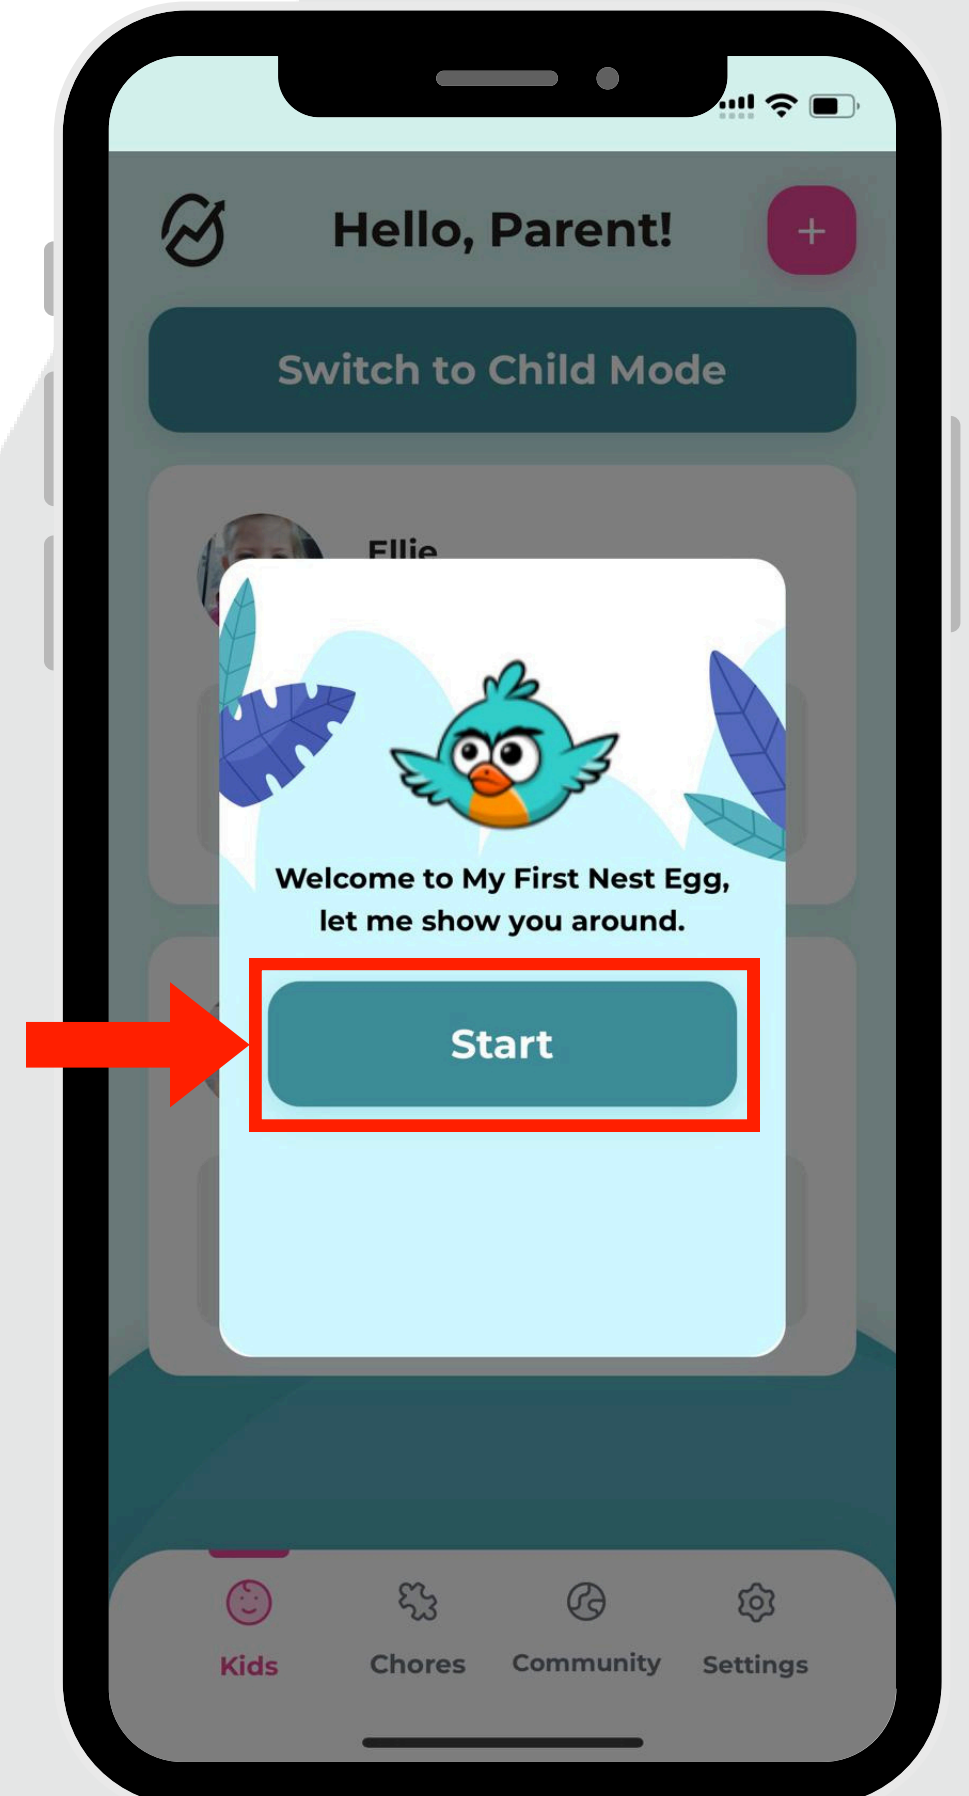

2. Select the underlined text to enter your Share Code.

3. Enter Share Code and click (+).

4. Choose a title for yourself and click "Add to my account."

5. Go through the rest of the account set-up.

****Note:** The secondary parent account does not have the same permissions as the primary parent account. To delete a child's profile, you must use the primary account.
